

Come and join us

We are looking for energetic and enthusiastic people, with or without technical knowledge and experience to join our team.

We serve the church weekly at worship services, updating the website, taking

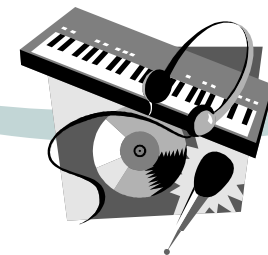

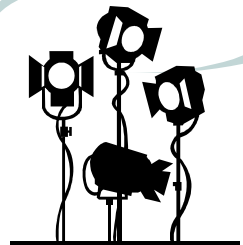

pictures at church events, creating the projection and videos used in worship, and so much more.

Serve God in places you would never expect.

Some of the work can be done from home on your own computer, other work involves taking pictures or working on a project while you are already here. Some will require you to be in the booth at a worship service.

St. Paul's Tech Team

Fall 2007

Tech Team Information Request

Types of Jobs available:

Sunday Morning Tech

Booth Jobs:

- *Sound engineers* work for all services that are in the primary worship site. Extensive training is provided to prepare someone to set the microphones up, balance them and run the sound board through worship.
- *Projection engineers* run the projector and computer to deliver the images the congregation sees during the worship service. Training for this is provided as well.
- Each worship service also has a *videographer* who shoots the service onto video for storage in the church library.

Tech Jobs outside of worship:

- Persons are needed for *website upkeep*. Both content creation and uploading are needed.
- People are needed to *take pictures and shoot video* at church events. The church has a digital camera and video camera available for this purpose.
- People are needed to *sort and catalog digital pictures* that have already been taken.
- We also need people to work on *creating the projection* that is used in worship each week, as well as helping edit the films that are created for worship and web use.

We would be happy to discuss any of these projects with you. Fill out the attached and return it to the church office.

I am interested in

- Sound engineering
- Projection engineering
- Videography
- Taking Pictures/Video
- Working with the website
- Working with video creation
